
Environmental Assessment Update: East Tunnel Alignment

Rapid and reliable transit is coming to the centre of Toronto. The Crosstown will move Torontonians to work, school and play faster than ever before – reducing travel times and enhancing our economy and our environment. The Crosstown will run along Eglinton Avenue and transit travel will be up to 60% faster than today.

Metrolinx invites you to attend a follow-up meeting on the east tunnel extension to just east of Don Mills Station. A public meeting was held in December to provide a project update, to present proposed changes to the tunnel alignment, and to receive input from the public on those changes. Now, Metrolinx wants to share the input received and discuss next steps.

The information meeting will be held starting at 7:00 pm with an opportunity to view displays and speak one-on-one with staff, followed by a presentation and question and answer at 8:00 pm. We look forward to seeing you there.

Date: Thursday, January 31, 2013

Time: 7:00 p.m. – 9:00 p.m.

**Location: Ontario Science Centre, Telus Conference Room
770 Don Mills Road**
