

SHEPPARD EAST LIGHT RAIL TRANSIT PROJECT

Quick Facts

- 13 kilometres of light rail transit along Sheppard Avenue from the planned Don Mills subway station to east of Morningside Avenue
- 1.1 kilometre tunnelled connection to Don Mills subway station
- Up to 26 surface stops along the alignment
- Rapid Transit Connections: Sheppard subway line, and the future Scarborough subway
- Total capital costs: \$1 billion (\$2010)
- Projected Ridership: 3,000 people per hour in the peak direction by 2031
- The Sheppard Maintenance and Storage Facility at Conlins Road is part of the Sheppard East LRT Alternative Finance Procurement package

The Project

The Sheppard East LRT is a 13 kilometre light rail transit line, with a 1.1 km tunnel connection to Don Mills subway station from Consumers Road, and 11.9 kilometres running along the surface of Sheppard Avenue from Consumers Road to Morningside Avenue. The surface line will operate in a dedicated lane in the centre of the street.

Project Status

Sheppard East LRT underpass construction at Agincourt GO Station was completed in December 2012. This enhances the traffic flow as well as enhance the safety and reliability of GO Transit.

The Sheppard East LRT is part of Metrolinx's investment in rapid transit in the City of Toronto. It will be constructed following the completion of the Finch West LRT.

Sheppard East LRT: Current Scope of Work
